

SOAPOPOPULAR® DISPENSER FLOOR STAND SYSTEMS

DISPENSER FLOOR STAND SYSTEM

Soapopular® Dispenser Floor Stand Systems is a ready-to-go Floor Stand for increased access to hand sanitizer within high-traffic and frequent use areas, helping to reduce the spread of germs and bacteria in peak contact zones.

For locations with limited to no wall space, Soapopular® Floor Stands can be placed on flat floor surfaces quickly and easily. Parts and Tools required for assembly are all included with each Floor Stand, making installation just as easy.

Each Floor Stand System is equipped with our Automatic Foam Dispenser, providing 2,600 foam applications between refills.

- Made using Stainless Steel or Aluminum, our Floor Stand Systems tackle high-traffic and frequent use areas that are prone to germs/bacteria.
- Can be placed on flat floor surfaces around your facility as needed and features a Weighted Base to strengthen the floor stands Integrity while reducing risks of knock-overs.
- Our Dispenser Floor Stand Systems include a Drip Tray to catch accidental user drips and spills, reducing messes and slippery surfaces.
- Soapopular® Automatic Foam Dispensers provide 2,600 applications using a built-in Infrared Sensor, giving users access to hand sanitizer without touching the dispenser.

Soapopular® Dispenser Floor Stand Systems provide another avenue of hand sanitizing for staff, patrons, and visitors to use especially in high-traffic areas where hand contact is common on surfaces prone to germs and bacteria.
