

SOAPOPOPULAR PLUS® 70% ALCOHOL FOAM DISPENSERS

Wall-Mount Dispensing Systems

Soapopular PLUS® Hand Hygiene products are further enhanced with the implementation of our Durable Foam Dispensers. They are designed to withstand the rigors of High-Traffic Areas by enabling facilities to increase access to Hand Hygiene products, covering more area's that are prone to germs/bacteria.

For area's with limited to no surface space, Soapopular PLUS® Dispensers can be mounted to flat wall surfaces using one of two quick and easy installation methods: Strong Adhesive Tape or by using Screws and Anchors, both parts included with all Wall-Mount Dispensers.

- Made using durable materials to handle frequent use in fast-paced environments to protect and cover more area's that are prone to germs/bacteria.
- Can be mounted to most flat-wall surfaces efficiently and easily using Strong Adhesive Tape or Screws and Anchors that are included with each Wall-Mount Dispenser.
- Soapopular PLUS® Dispensers are designed to apply Foam formula's, requiring the refilling and use of our 70% Alcohol Hand Sanitizer that is specifically formulated to Foam.
- Increasing access to Hand Hygiene products around key locations in your facility can aid in reducing the spread of germs and bacteria, promoting a clean environment.

Soapopular PLUS® Dispensers utilize one of two Refill Systems to better fulfill the needs of our users. Our Cartridge Refill and Bulk-Fill Refill System feature their own advantages and options to make implementation easier in your industry.

Soapopular PLUS® 1L Cartridge Refill System

Quick and simple, the Soapopular PLUS® Cartridge Refill System swaps out empty cartridges with newly filled ones for a seamless Refilling System. The Click-and-Go cartridges easily pop out and click into the dispenser when needed making the process hassle-free and fast for maintenance.

Soapopular PLUS® 4L Bulk-Fill Refill System

Cost-Effective refilling, the Soapopular PLUS® Bulk-Fill Refill System utilizes our 4L Refill Jugs that can fill up to FOUR dispensers per 4L Jug. Simply pour the contents of the Refill Jug into the Inner Dispenser Bottle when needed. Dispensers used with this Refill System are available in Manual and Automatic.
