

Stainless Steel Floor Stand

Dispenser Stand System

Increase accessibility and usability of hand hygiene products with Soapopular® Stainless Steel Floor Stands. Utilized in high-traffic areas and around facility entrances/exits to place our Automatic Dispensers where hand hygiene is needed.

Highlights and Features

- Made of durable Stainless Steel construction to tackle high-use areas with ease.
- Designed with a weighted base to greatly reduce the risk of accidents and knock-overs.
- Includes a Drip-Tray to catch excess drips after every application, preventing slipping hazards around the dispenser stand.
- Can be ordered as an independent floor stand or as a complete floor stand system equipped with our Automatic Foam Dispenser.

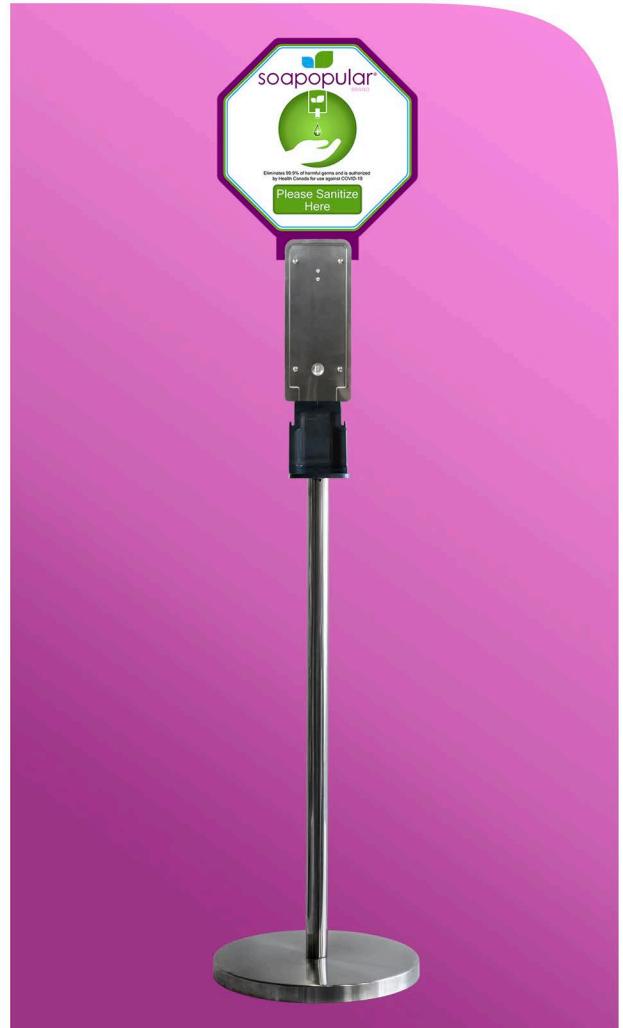

Weighted Base Design

Prevent accidents and messes with our dispenser stands that utilize a weighted base to prevent the risk of knock-overs.

Stainless Steel Floor Stand

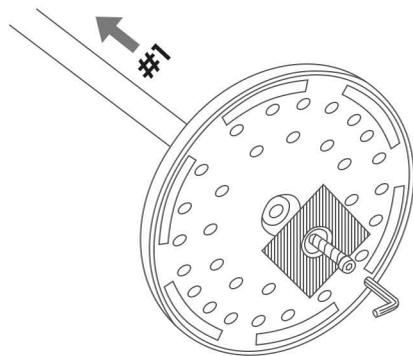

Components Included

- Floor Stand Base x1
- Floor Stand Pole x1
- Drip Tray x3
- Bill Board x1
- Black Plate x1
- Screw Accessories x1 Bag
- Key x1
- Washer Plate x1

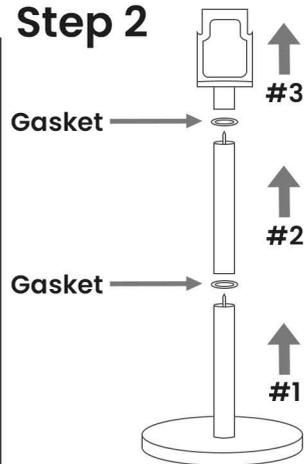

Installation Instructions

Step 1

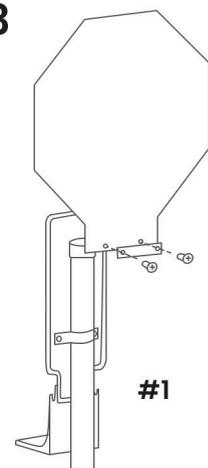

Place pole on base with the printed #1 on pole facing upright. Connect together with the black plate and screw. Tighten with allen key.

Step 2

Connect the dispenser poles in order: 1 - 2 - 3. Place the rubber gasket between each pole, tighten with screws.

Step 3

Align screw holes of the sign with holes at the top of stand backplate. Tighten together with washer plate in-between.
